

SOFiE Sort BATCH - Certificates renewal

U IT is an independent RegTech company fully dedicated to the Legal Reporting domain in Luxembourg. Since 2010, we supported more than 500 customers including 45 banks and became a reliable and trusted reference.

This present offer covers all the aspects surrounding the delicate operation of renewing the Luxtrust certificates under a batched environment which requires a minimal interruption of the service.

Context & requirements

SOFiE Sort in BATCH mode is used by the great institutions which are required to send daily reports.

The usual requirements are :

- the service may not suffer an interruption of more than half day
- the service requires to stay reliable after the operation

Guarantees

In addition to ensuring the successful completion of the task, we also guarantee :

- **A maximum of 4 downtime hours**
- A specific independent backup of the profile which grant a fast profile recovery guarantee
- **Optional post-operation service contract under SLA**

Tasks performed

- All the technical steps under the SOFiE Sort environment
- Act as SPOC for all the paperwork with Luxtrust, the House of Entrepreneurship and Worldline
- Create & fill the CSSF registration document(s) + provide with precise instructions
- **Synchronize all the participants for the key operation of switching the certificates**
- Test & validate the renewal.
- Backup the key SOFiE profile (restore warranty)

Audit & maintenance

At the end of the renewal, U IT performs a **technical audit of the environment**.

Depending on the results **we provide with advises and/or potential proposition(s) to enhance the solution**.

Optionally :

- we can perform a maintenance, a clean-up and minor reconfiguration of the environment
- we can provide with a first level SOFiE support to any IT owner of the environment
