Generalities

➤ 1st part of the report

Configuration and help

Save, import xml, check, export xml, copy

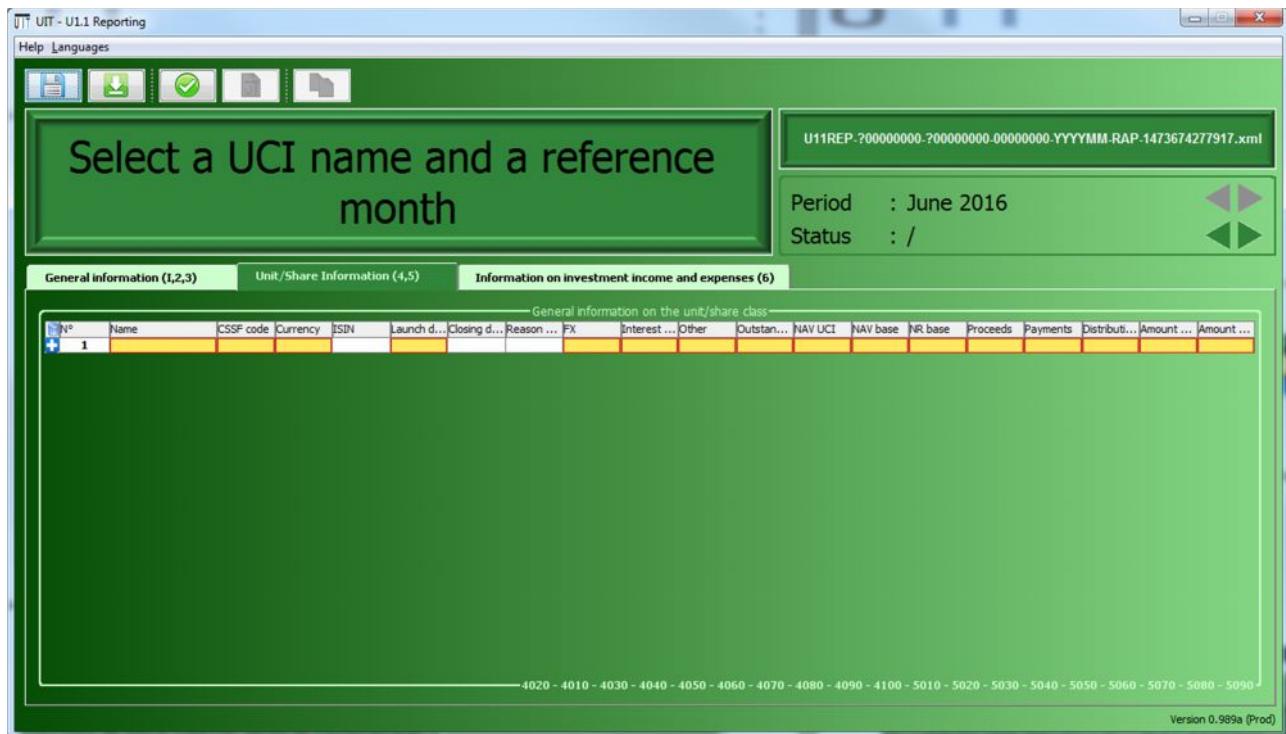

Navigation between the 3 parts of the report

Fields to be completed

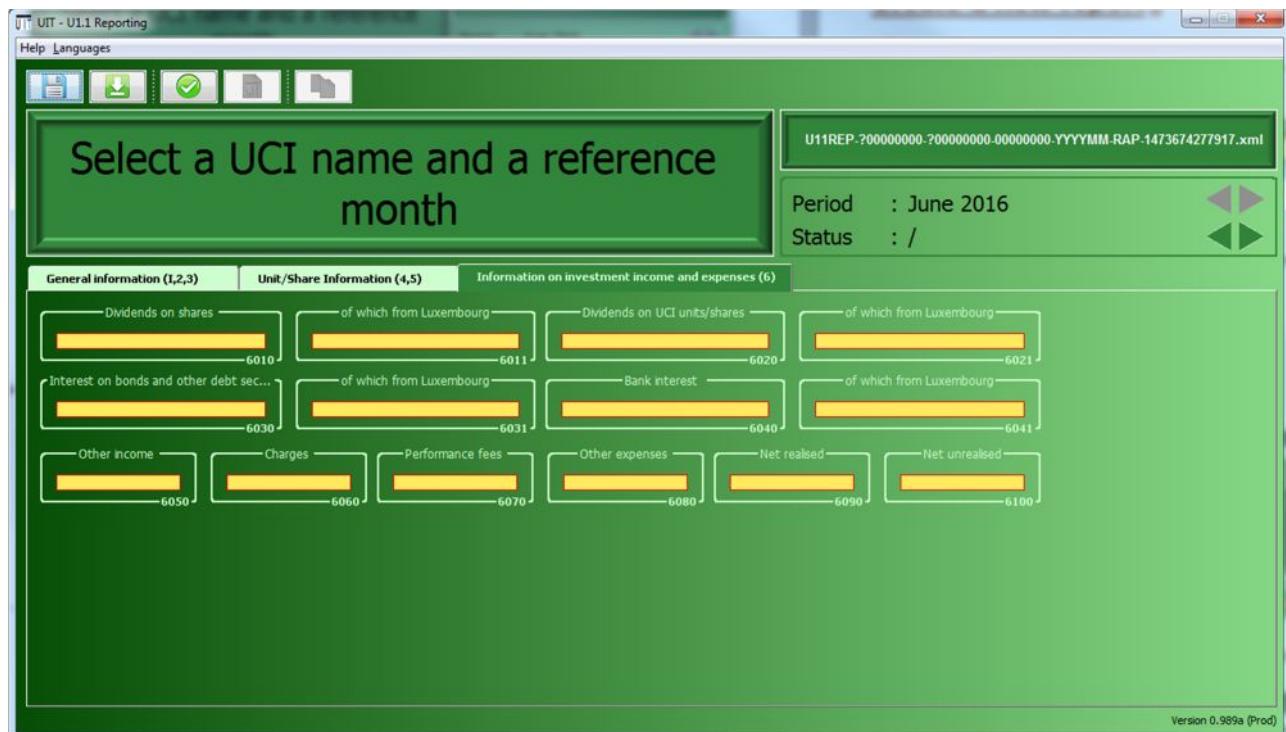

The screenshot shows the U11 Reporting software interface. At the top, there's a toolbar with icons for save, import, export, and copy. Below that is a menu bar with 'UIT - U11 Reporting', 'Help', and 'Languages'. The main window has a title 'Select a UCI name and a reference month'. On the right, there's a status bar showing 'U11REP.700000000.700000000.00000000.YYYYMM.RAP.1473674277917.xml', 'Period : June 2016', and 'Status : /'. The central area contains several groups of input fields:

- General Information (1,2,3)**: Fields for 'Name of the UCI' (choose from list), 'Reporting status' (choose from list), and 'Valuation date' (choose from list).
- Unit/Share Information (4,5)**: Fields for 'CSSF code of the sender' (choose from list) and 'Net asset value calculation frequency' (choose from list).
- Information on investment income and expenses (6)**: Fields for 'Reference month' (choose from list), 'Base currency of the UCI' (choose from list), 'Launch date' (choose from list), and 'Closing Date' (choose from list).
- Total NAV of the preceding ref. month**: Fields for 'Shares issued during the ref. month' (choose from list) and 'Shares redeemed during the ref. month' (choose from list).
- Sender's information**: Fields for 'Name of employee' (choose from list), 'Phone number', and 'Email address'.
- Comments - (not more than 1024 characters)**: A large text input field.

➤ 2nd part of the report

➤ 3rd part of the report

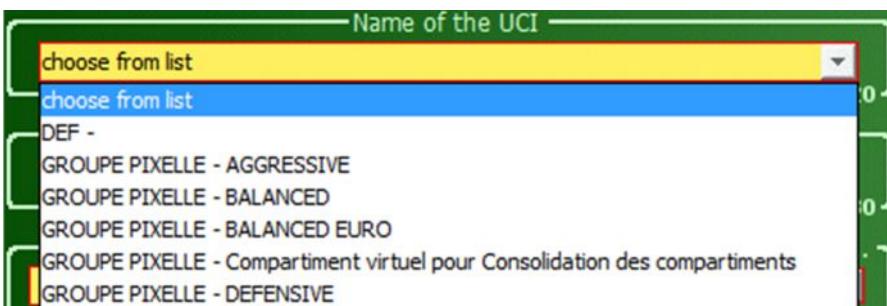

Launch U11 Builder

Please see installation's document.

Create a new report

1. UCI name and reference month

First, choose the UCI name in the drop list.

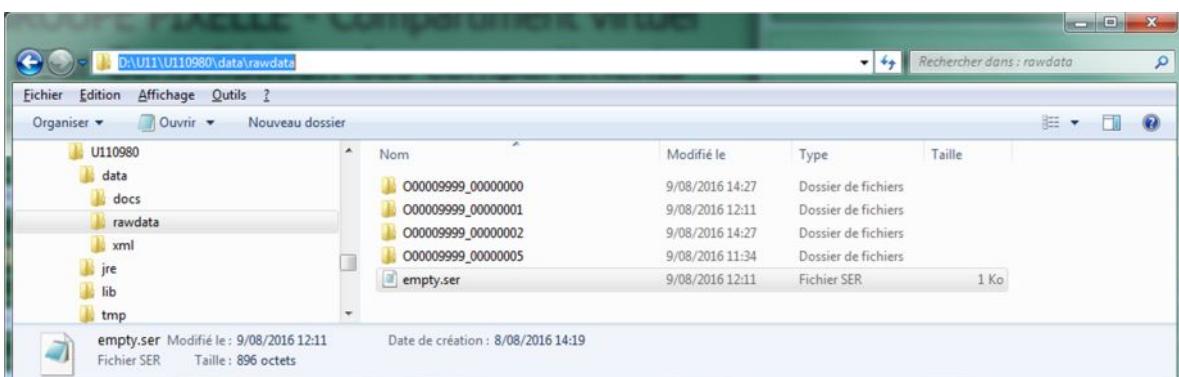

Once the selection is made, are updated automatically:

- The name in the top frame;
- The report's name;
- the UCI's CSSF code.

Besides, U11 Builder creates at this moment a corresponding directory in data\rawdata. It's in this directory that report's data will be saved.

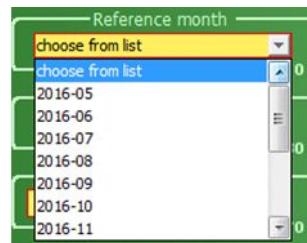

Then, choose the reference month in the drop list.

In the same way, are updated:

- The date of the report in the right frame;
- The report's name;
- The validation date.

Besides, an indication of status appears.

2. First tab : « General information » - Other fields

Once UCI's name and reference month entered, the U11 Builder indicates you fields to be filled for the report. In the 3 tabs, fields to be completed have a yellow bottom and a red frame.

The table can be completed in two ways:

- directly in the table (example 1).
- through a capture window (example 2) which opens when the user double-clicks on the line's number. In this option, you have to click on to save the line.

Example 1

Sender's information			
N°	Name of employee	Phone number	Email adress
1	Paul	0123456789	paul@pixelle.com
2			

1040 - 1040 - 1050

Example 2

Double-click

Capture window is opening

Please, see chapter 5 for more details about capture window

Enter your data and save

When clicking, you receive a saving confirmation and the capture window is closed automatically

Line validated

Sender's information			
N°	Name of employee	Phone number	Email adress
1			

1040 - 1040 - 1050

3. Second tab : « Unit / Share information »

In the second tab, a data entry control helps you to avoid mistakes. It prevents from introducing letters in the fields where numbers are necessary and vice versa.

The table can be completed like once of the first tab.

- Directly in the table:

General information on the unit/share class																			
N°	Name	CSSF code	Currency	ISIN	Launch d...	Closing d...	Reason ...	FX	Interest ...	Other	Outstan...	NAV UCI	NAV base	NR base	Proceeds	Payments	Distributi...	Amount ...	Amount
1	CAPITALISATION	0001	EUR	LU01234...	2016-08...		true	true	true	true	123	123	0.98	100	98	98	123	123	123
2																			

- Through a capture window:

Double-click on the table row to open the **Capture window opens**.

Edit line n°: 1 window shows two main sections: General information on the unit and Financial information on the unit. Both sections contain various input fields with numerical values and dropdown menus. The operations bar at the bottom includes buttons for saving, canceling, and closing.

Enter your data and save to validate the changes. A green checkmark icon indicates successful validation.

When clicking, you receive a saving confirmation and the capture window is closed automatically. An orange arrow points to the green checkmark button in the operations bar of the capture window.

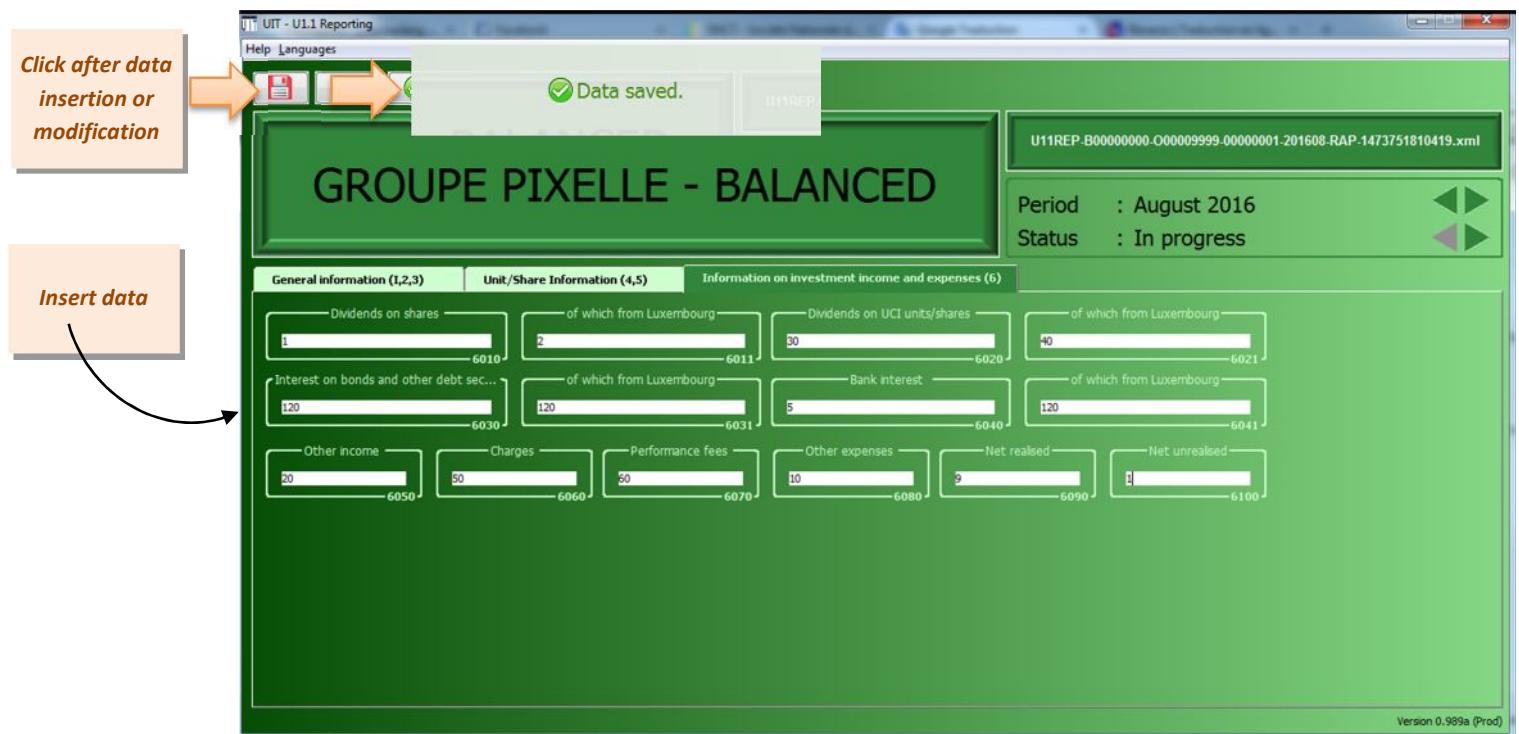

Line validated message is displayed in a separate window.

General information on the unit/share class																			
N°	Name	CSSF code	Currency	ISIN	Launch d...	Closing d...	Reason ...	FX	Interest ...	Other	Outstan...	NAV UCI	NAV base	NR base	Proceeds	Payments	Distributi...	Amount ...	Amount
1	CAPITALISATION	0001	EUR	LU01234...	2016-08-01		true	true	true	true	123	123	0.98	100	98	98	123	123	123

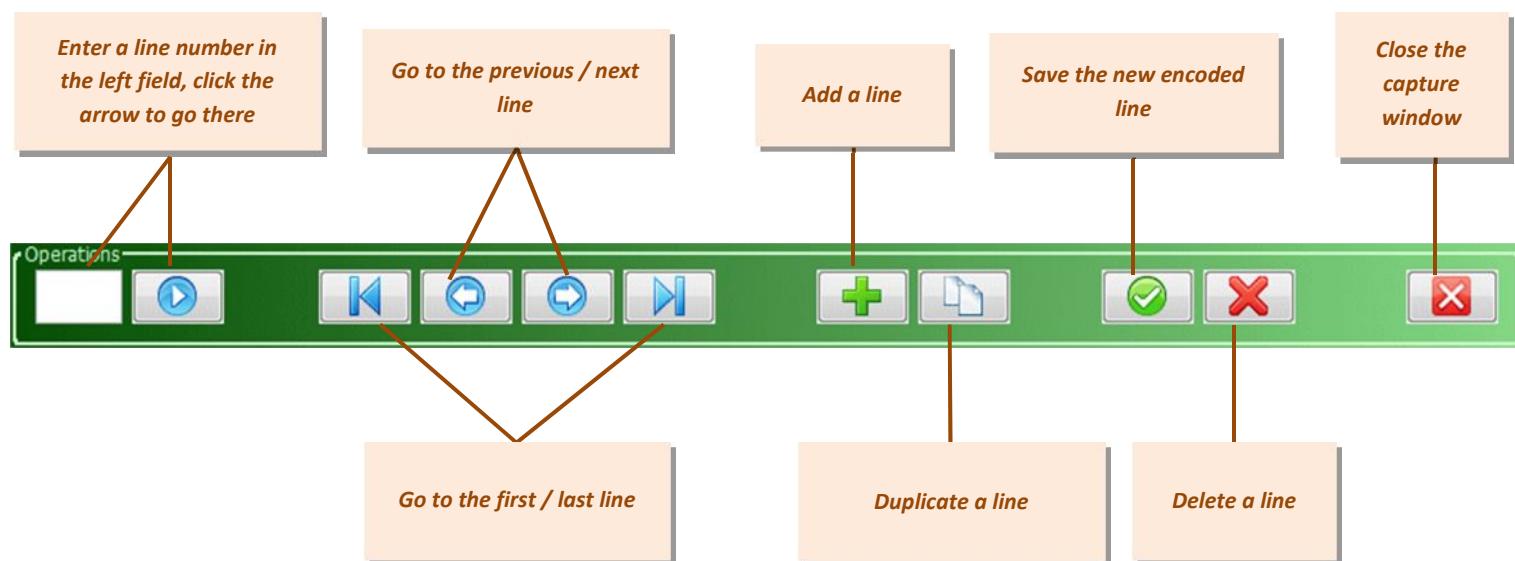

4. Third tab : « Information on investment income and expenses »

This tab must be completed directly in the tab and can be saved by clicking on 

CAUTION: All fields which must be completed to obtain a valid report contain by default the value "0". You have to correct value accordingly.

5. Capture window

Buttons

1. Save

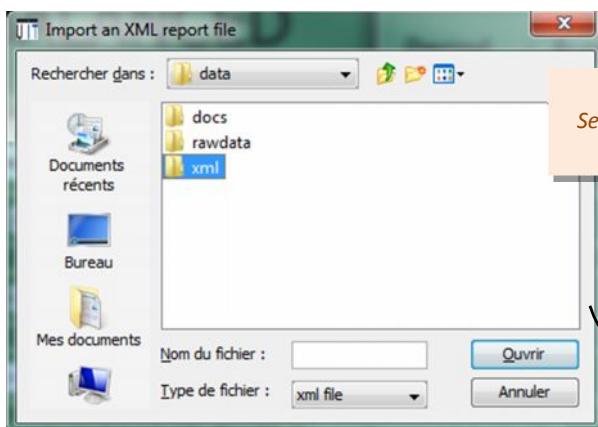

When all data are saved, the button is blue. As soon as you make a change not yet saved, the button turns red.
All captured data are saved in a unique RAW file for each UCI and each months.

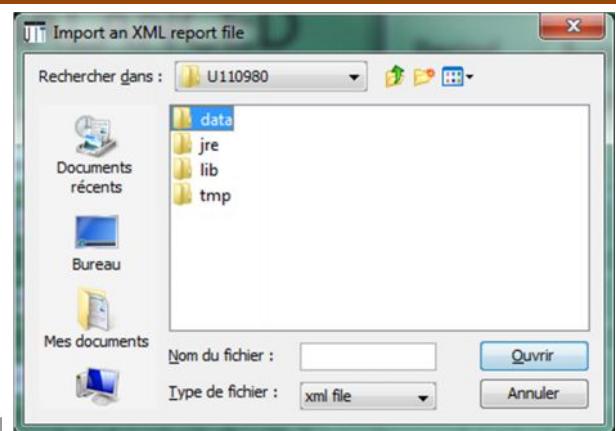

2. Import

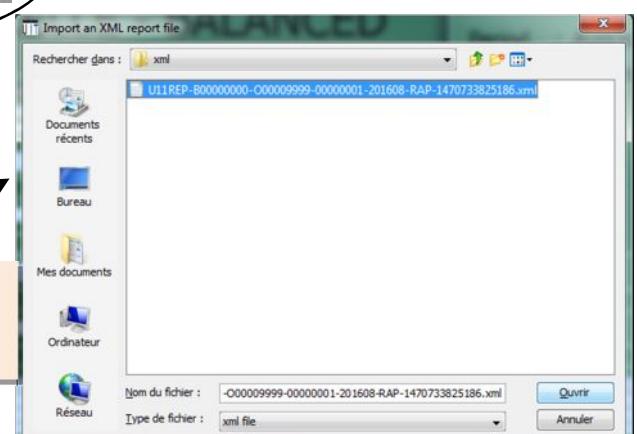

Click on the button to open a file browser to select an xml to be imported
Select "Data" folder (default)

Select "xml"

Select the xml to be imported

Confirm or cancel import

3. Check button

→ This button checks if all the captured values follow the report's rules and formats.

*After clicking the **Data Validity Verification** button, all the captured content will be checked in order to detect any errors. In case of an error, the user will be informed with a specific message and the export button will not be available.*

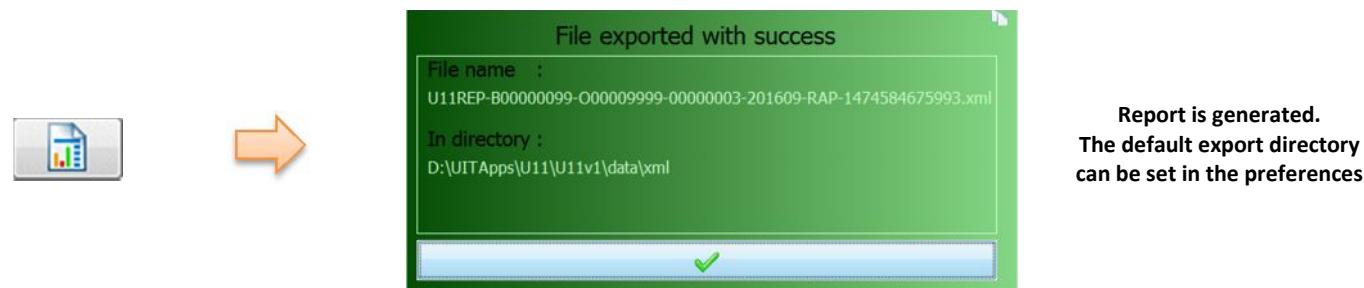

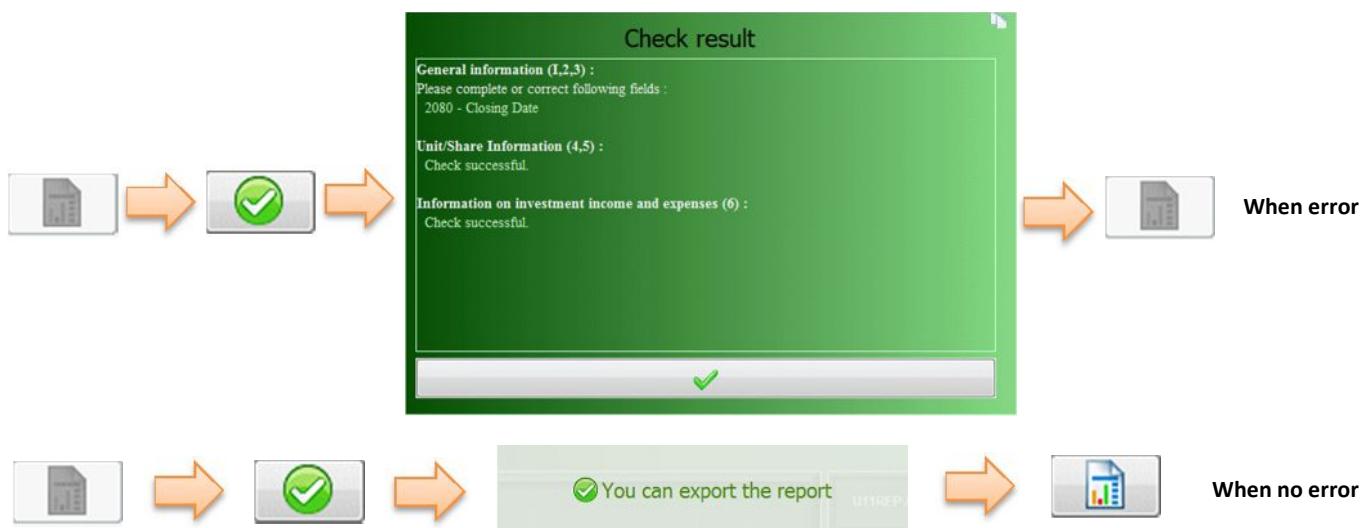

NOTE: Using the "Check" function/button is mandatory prior to export and generate the report

4. Export the U11 report

→ Exports the captured data encoded in XML format according to the structure required by CSSF.

*By default this button is **disabled** and is **blurred**. You will be able to export a report only when you will have verified your captured data by clicking the **Check** button from the step above.
If an error occurs during validation, this error will be explained in a window which opens and the button will still be disabled
If no error, the button will be enabled.*

5. Copy

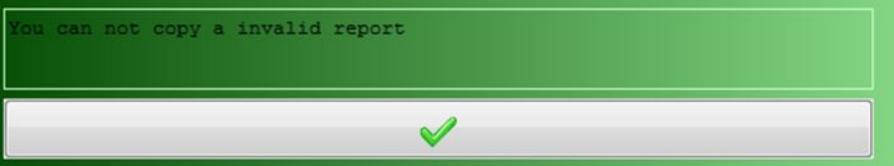

→ Click on the “Copy” button to create a copy of the active report for the next month.
If the report contains no errors, a confirmation window appears.

Confirm or cancel

Error

An error will be displayed in case of a non valid report :

If the next month's report does already exist, the tool will ask for a confirmation to overwrite the data.

Upon a successful copy, the tool will : 1- Update report's name. 2- Update reference month and Period. 3- Reset status to "In Progress". It'll will display the new (copied) month screen of the selected UCI.

The screenshot shows the UIT - U11 Reporting application window. At the top, there are standard Windows controls (Minimize, Maximize, Close) and a menu bar with 'Help' and 'Languages'. Below the menu is a toolbar with icons for file operations like Open, Save, Print, and Copy/Paste.

The main area displays the report title 'GROUPE PIXELLE - BALANCED' in large bold letters. To the right, a status bar shows the report identifier 'U11REP-B00000000-O00009999-00000001-201609-RAP.1473760045076.xml', the 'Period : September 2016', and the 'Status : In progress'.

The form is divided into several sections:

- General information (1,2,3)**: Fields include 'Name of the UCI' (GROUPE PIXELLE - BALANCED), 'Reporting status' (provisional report), 'Valuation date' (2016-08-31), and 'Total NAV of the preceding ref. month' (0).
- Unit/Share Information (4,5)**: Fields include 'CSSF code of the sender' (80000000), 'Net asset value calculation frequency' (13-monthly), and 'Total NAV of the ref. month' (0).
- Information on investment income and expenses (6)**: Fields include 'Reference month' (2016-09), 'Base currency of the UCI' (EUR), 'Launch date' (2016-08-01), and 'Shares issued during the ref. month' (0).
- Sender's information**: A table showing employees: Paul (ID 1, phone 0123456789, email paul@pixelle.com) and Nicole (ID 2, phone 0987654321, email nicole@pixelle.com).
- Comments**: A text field for comments with a character limit of 1024 characters.

At the bottom right, the version number 'Version 0.989a (Prod)' is visible.

6. Period

You can easily navigate between months of the current UCI using arrows

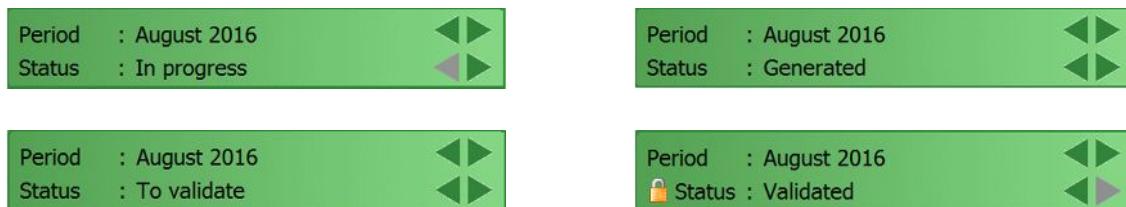

7. Status

You can determine the status of your report (optional manual operation):

- In progress => report in progress ;
- Generated => report generated ;
- To validate => waiting for CSSF's validation;
- Validated => report validated by CSSF.

Navigate from one status to another using arrows. The status you chose is saved at the same time as the other data.

CAUTION: When you choose "Validated", the report is locked! All the fields, except "Name of the UCI" and "Reference month", are grayed and not anymore editable. When you are on the status "To validate" and clicking on the right arrow, the Builder warns you with this message:

UIT - U11 Reporting

Version 1.0 alpha (Prod)

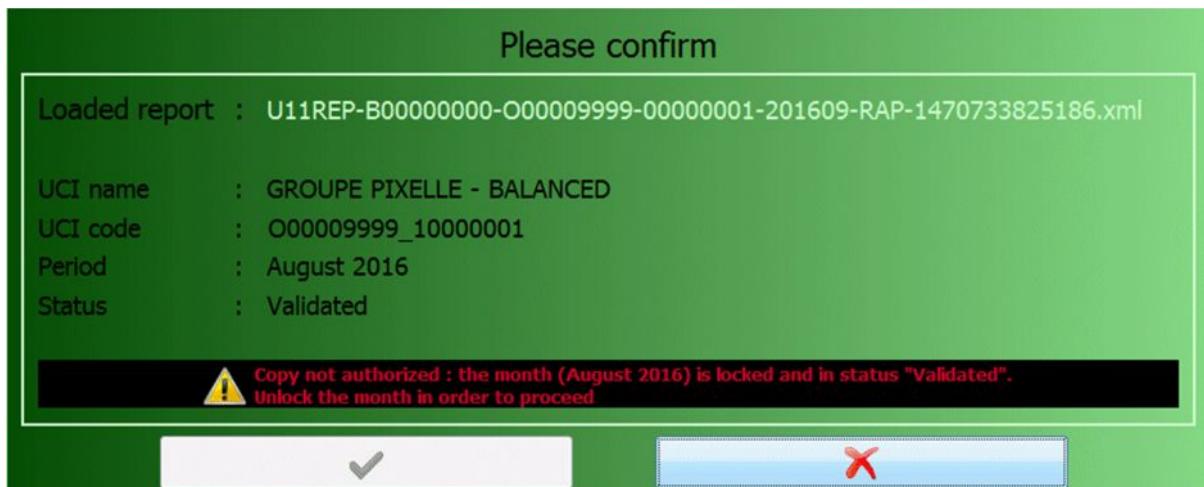

- By confirming the import of a valid xml file, your data appear in the U11 Builder and a message confirms the success of this operation. The status is reset to "In progress".

- If the xml file is not valid, the tool will display the following message :

- If you try to import a locked xml (with a "Validated" status), the Builder displays the following message and won't allow to import.

9. Language menu

➔ Switch between languages (French / English).

By clicking the language button you apply the translation for all the reporter's fields. This contains header names, buttons, labels and any displayed comment.

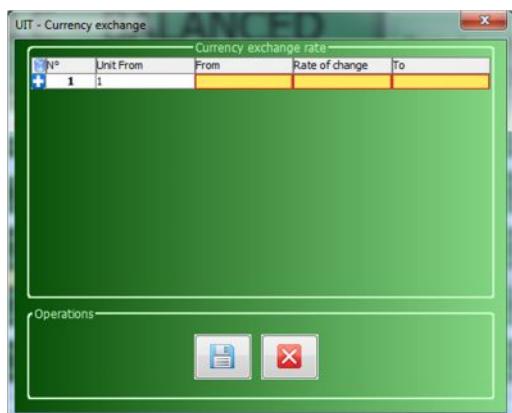

10. Help menu

➤ Open guidelines

Opens the CSSF documentation about U11 reporting.

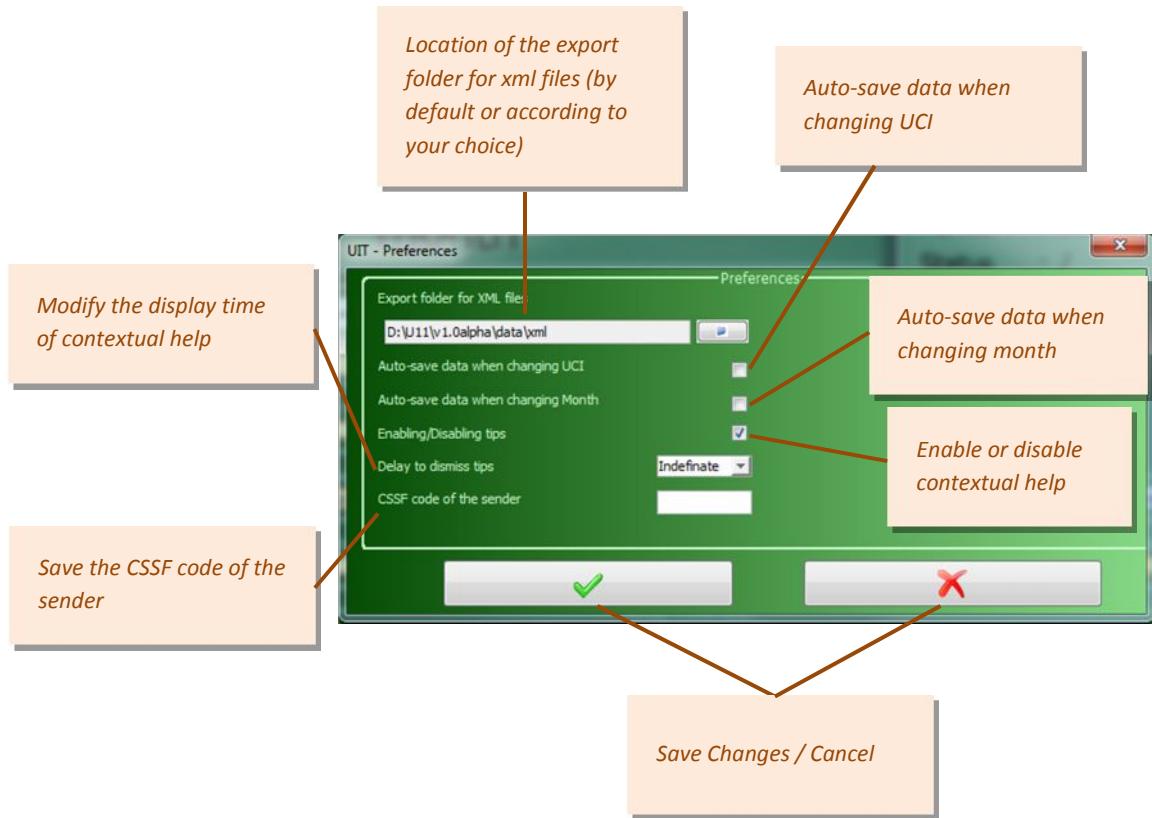

➤ Currency exchange

Opens a window allowing to register exchange rates between various currencies. Saving these exchange rates allows the U11 Builder to convert automatically in the second tab.

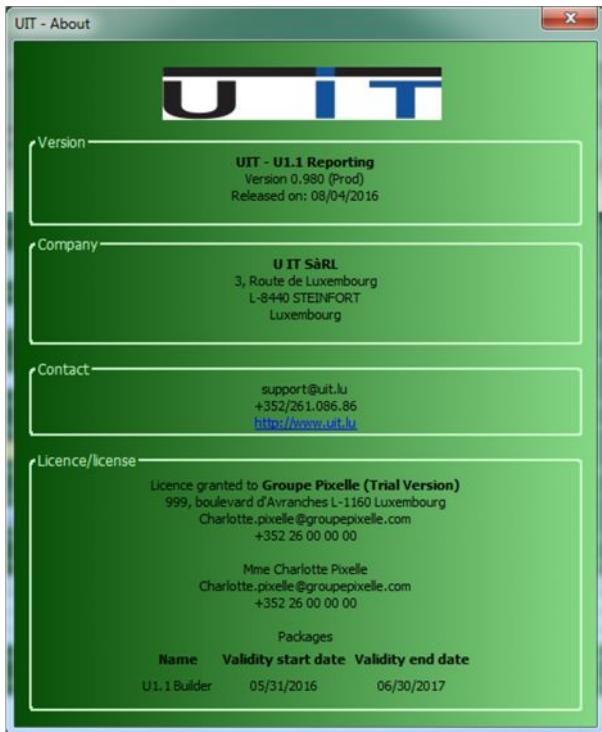

➤ Preferences

In this window, you can change some options according to your preferences.

When saving or canceling modifications, the Builder informs you with these messages

➤ About

Information regarding U11 Builder's version, U IT's contact details and customer's license.
